Ninad Kelkar
Company Secretary

Mumbai, February 05 2021:

Aurionpro Solutions Limited (BSE: 532668) (NSE: AURIONPRO), announced its un-audited financial results for the Quarter ended 31st December,2020.

Result Highlights Q3 FY21

➤ **Revenue**

- The consolidated revenue for Q3-FY21 stood at INR. 102.03 Cr. against INR. 88.37 Cr. in the previous quarter. The Gross Margin remained at 29.30%.

➤ **EBITDA**

- EBITDA for Q3 FY21 stood at INR. 22.38 Cr. and the EBITDA margins as against INR 16.84 Cr. YoY and INR 20.36 Cr. for previous quarter.

➤ **PAT**

- PAT for Q3 FY21 stood at INR. 8.50 Cr. which has rose significantly compared to INR 6.02 Cr. YoY and INR 6.72 Cr. for previous quarter.

Commenting on the results and performance, Mr. Paresh Zaveri, Chairman & Managing Director of Aurionpro Solutions Ltd said:

“The consolidated revenue for the Q3-FY 21 stood at INR 102.03 Cr. with EBITDA at INR 22.38 Cr and Profit After Tax (PAT) at 8.50 Cr. The significant improvement has been witnessed in EBITDA and PAT margins on YoY and QoQ basi. The performance on all significant parameters have improved and is touching pre-covid levels. This is a result of the strategic steps taken by the Company to contain costs and improve operational efficiencies and also focus towards IP based businesses.

Segment wise, Banking & Fintech maintained steady growth during the quarter with a healthy EBITDA margin of 28.5%. The financial sector is showing signs of rebound after challenging phase. We are now seeing a very good traction in this segment. The Smart City and Smart Mobility segment has also witnessed a significant improvement with enhanced governmental spending which has reflected in the performance improvement on QoQ basis. This segment was severely impacted during the pandemic.

The sales pipelines across all business segment are strong, additionally there is a sharp recovery in the domestic economy with all major economic indicators showing an uptick. Further, We are encouraged with the union budget for FY 22, announced by the Government of India, which seeks to enhance government spending on capex substantially, particularly in the infrastructure segment. This may provide huge boost for the smart city and smart mobility segments. The pandemic has already increased the pace of digitisation and adoption of contactless technologies. Aurionpro, with its robust offerings, is best placed to seize the immense opportunities created by the digital push. Our focus is to strengthen our capabilities, enhance operational efficiencies to take advantage of the unprecedented opportunities created for us.
