Aurionpro Secures Major Order from the Government of Haryana for the issuance of open loop NCMC cards to provide free travel for the families Below Poverty Line

Mumbai – 05th March, 2024

Aurionpro proudly announces a significant order win from the Government of Haryana to roll out its ambitious Haryana Antyodaya Parivar Parivahan Yojana (HAPPY) Scheme. This transformative initiative aims to provide free public transportation services to individuals living below the poverty line within the state. Through the issuance of open-loop National Common Mobility Cards (NCMC), eligible individuals will enjoy seamless and free travel upto 1000 km per year per member of the covered family.

Aurionpro is honoured to be entrusted with the implementation of this pivotal project which includes phased issuance of open loop NCMC cards to the entire covered population. Aurionpro is a prominent provider of open-loop technology solutions and will serve as the technology partner for this project, while AU Small Finance Bank joins as the banking partner for card issuance.

The initial phase of this extensive multi-year project, valued close to INR 100 crores, is scheduled for delivery within six months, with subsequent maintenance services to follow thereafter.

Mr. Sanjay Bali, President – Technology Innovation Group, Aurionpro said *"We express our gratitude to the Government of Haryana for selecting Aurionpro as their partner and entrusting us with the opportunity to drive forward this initiative focused on fostering smart and sustainable transportation accessible and affordable to all citizens. Under this scheme, Aurionpro is set to issue 5 million open-loop cards in the initial phase, that could firmly establish our position as one of India's foremost providers of open-loop NCMC cards. We anticipate that this pioneering project will serve as a model for other state governments, further establishing our reputation as the preferred partner for the governments in the smart transit space."*
