Aurionpro announces successful go-live of the project in Transit Business

SC Soft, an Aurionpro subsidiary, announces go-live of its project in transit business in South America. The project which covered nine public transport companies in Lima, the capital city of Peru, have successfully upgraded their transport systems with a new age Automatic Fare collection system to accept contactless card system. SC SOFT was one of the leading partners in this project, responsible for the supply of on board validator SCV 500, which supports all types of contactless cards, mobile based ticketing and QR code and GPRS to support Vehicle location.

Mr. Sanjay Bali, CEO SC Soft, while making this announcement said that "*we are pleased to announce the successful implementation of the first phase of project in Lima, Peru. We are expecting next phase of the project to be launched soon. This implementation will strengthen our position in the global markets. We are seeing huge momentum in the transit business globally on account of increased preference towards contactless travel. We are expecting this momentum to accelerate in future*".
