- In one of the largest wins, Aurionpro was slected as the system integrator for implementing “IoT based Integrated Bus ticketing System” for the Uttar Pradesh State Road Transport Corporation (UPSRTC) on a Build Own Operate and Transfer('BOOT') model.
- In another significant win, Aurionpro was selected by the State Bank of India as the Solution Provider for Kanpur Metro Project (KMP) under Uttar Pradesh Metro Rail Corporation Limited (UPMRCL) for implementation of NCMC based Automatic Fare Collection System (AFC System). This project was completed in record time and was inaugurated by the Hon’ble Prime Minister of India.
- **Smart City**
- Aurionpro wins landmark order from High Court of Madhya Pradesh for the complete digitisation and implementation of Video Surveillance Systems and Live Audio-Visual Streaming System across 48 District and Session Courts and 160 Civil Courts under the High Court of Madhya Pradesh.

Commenting on the results and performance, Mr. Paresh Zaveri, Chairman & Managing Director of Aurionpro Solutions Ltd said:

“We are delighted to announce these results, the performance for Q3-FY 22 continues upward trend. The Consolidated revenue was at INR 129.51 Crores with the EBIDTA at INR 29.88 Crores and PAT at INR 19.70 Crores and the EBIDTA margins at 23.1 % and PAT margins at 15.2%, a robust improvement across all parameters.

Along with the strong performance, we continue to focus on paring down the debt and strengthen the balance sheet, as can be seen from significant reduction in interest payout. The strong order book and robust pipeline will allow us to sustainably grow both sales and profitability in coming quarters. As seen during this quarter, understandably the tax outgo will continue to increase. We expect to close our investments in SC Sift and Toshi automatic from our internal accruals. Additionally, our investments in new products and platform development are now part of routine expenses while we continue to maintain strong operational growth.

On the business side, we announced slew of new order wins which included some large ticket orders and strategic projects marking our foray into newer territories. These wins were largely a result of multiple strategic partnerships we have had with partners like MasterCard and SBI among others. We expect our relationship with these partners to deepen further going forward. Also, as we continue to strengthen our IP with backward and forward integration in transit space, we expect to become a significant global player in time to come. Our acquisition of Toshi Automation and increasing stake in SC Sift are steps in that direction and will greatly help in consolidating our position. While, transit is a breakout business for the year, we will continue to see sustained growth in our banking business and expect stronger growth there next year.

While we are set for the strong finish to the year, we will continue to maintain the momentum for the coming year as well. With the strong market recognition of our capabilities and our continued investment in improving our products and platforms, future will only be stronger. Among other things in coming quarters, we expect strong impact of our payment platform by itself and integrated with our other offerings to significantly accelerate future growth.”
