Aurionpro becomes First Indian Company to Launch EMV Card Type Payment Terminal (ECR-one) at UITP, Barcelona

Barcelona, June 07, 2023:

Aurionpro today launched its first homegrown EMV Card Type Payment terminal (ECR-one) at the UITP Global Public Transport Summit, the world's leading conference and exhibition, being held in Barcelona, where public transport professionals converge to exchange ideas, foster innovation, and establish valuable connections.

The launch ceremony was graced with the presence of Mr Chapin Flynn, Senior Vice President - Head Transit and Urban Mobility, Mastercard, and Mr Himanshu Joshi - State Bank of India, Frankfurt Branch.

With the launch of ECR-one, Aurionpro becomes the first Indian-based Company to have designed and manufactured a device that can accept both RuPay open loop cards and EMV global payment cards. The payment terminal can be used in all transit validators and non-transit solutions. This makes Aurionpro one of the few global transit players boasting a complete contactless payment solution and validator devices, including the EMV card reader.

ECR-one is a single product platform that allows contactless card reading, transaction processing, and ensures comprehensive security for financial transactions. EMV card readers support contactless payments for any EMV banking card, RuPay, and other global payment standards, including closed loop cards and NFC. The terminal is strongly suited for a wide variety of use cases, including payment, retail, and ticketing.

Sanjay Bali – President, Aurionpro, present at the launch event, congratulated the team on this achievement and said, *“At Aurionpro, our R&D teams are focused on innovating and building market-leading products that provide frictionless payment experience across the transit ecosystem. The launch of ECR-one will raise the bar for payment terminals worldwide and reinforce our position as an integrated global player in the transit space, as well as help us expand our presence in the non-transit payment ecosystem.”*

About Aurionpro:

Aurionpro Solutions Limited (NSE: AURIONPRO) (BSE: 532668) is an advanced technology solutions company catering to the needs of the Banking, Mobility, Payments, and Government sectors. We converge multiple technology solutions under our umbrella, acting as one platform for Advanced and Accelerated Platform-led Transformation, guiding businesses to ADAPT to a new paradigm in Digital.
